CLEAR® Smart MAM

Simplify workflows and amplify revenue.

Gone are the days when traditional Media Asset Management (MAM) systems sufficed to meet the complex demands of modern content creation and distribution. Today, the industry demands a solution that simplifies workflows, maximizes collaboration, and empowers content creators to unlock the full potential of their assets.

Against this backdrop of heightened expectations and unparalleled opportunities, we are proud to introduce CLEAR® Smart MAM, a game-changer in MAM that transcends the limitations of conventional approaches. Smart MAM is an AI-embedded MAM with AI-driven workflows for active library management with deep metadata, AI-assisted reviews, efficient storage management, and optimized for multi-platform distribution.

Picture this: Once burdened by idle assets and clutter, your archives are streamlined and efficient. Your team, equipped with cutting-edge AI technology, seamlessly collaborates on projects, unlocking unprecedented value with each asset. And your path to monetization is clearer than ever before, with intuitive features designed to maximize revenue opportunities at every turn.

Here's what sets CLEAR® Smart MAM apart:

Deep Metadata for Content Enrichment

Generate tiered, deep metadata, insights, and recommendations, enabling seamless searchability.

AI Search

Intelligent semantic search behind a conversational interface swiftly delivering the content you seek with depth and relevance.

Streamlined Organization

Enjoy simplified organization with pre-compiled categories and logical scene boundaries, ensuring your assets are easily accessible and efficiently managed.

Effortless Duplicate File Management

Say goodbye to duplicate files cluttering your storage space. CLEAR® Smart MAM effortlessly manages duplicates, saving you time and resources while optimizing storage costs.

Embedded Workflow and Work Order Management

Keep your projects on track with embedded workflow and work order management features, facilitating seamless collaboration among team members and enhancing project efficiency.

- Optimize the process with fewer hoops to jump through.
